THE HISTORY OF THE
CITY OF BOSTON

1790

The city of Boston, situated on a neck of land between the harbor and the bay, was first settled by the English in 1630. It was the first city in North America to be founded by a group of Puritan settlers who sought religious freedom and a better life. The city grew rapidly and became a major center of commerce and industry. It was the site of the Boston Tea Party in 1773, a key event in the American Revolution. The city was captured by the British in 1774 and remained under their control until 1780. After the war, the city continued to grow and became a major center of industry and commerce. It was the site of the Boston Massacre in 1770, a key event in the American Revolution. The city was captured by the British in 1774 and remained under their control until 1780. After the war, the city continued to grow and became a major center of industry and commerce.
